

Project of Technical Specifications Announced While Preparing for Public Tender on Acquisition of Steel Pipes

AB Amber Grid has announced project of technical specifications of steel pipes needed to construct Gas Interconnection Poland-Lithuania (GIPL) in the territory of the Republic of Lithuania.

Technical specification for GIPL pipes are attached below. They are also announced on Central Public Procurement Information System [portal](#).

Suppliers can submit via this portal their notices and suggestions for the above-mentioned project of technical specifications no later than June 29, 2018.

Public tender for acquisition of steel pipes will be launched shortly after this consultation is over.

At the moment public tender on construction works for GIPL is active until August 8, 2018, 10 AM.
