

A system user who has concluded the Natural Gas Transmission Service Contract with AB Amber Grid and is willing to use the electronic service booking and management system shall familiarize himself with [Rules for the use of the electronic transmission service booking and administration system.pdf](#) and sign [Agreement on the right to use the electronic transmission service booking and administration system.pdf](#). Upon the conclusion of the Agreement, system users may book capacities online, nominate gas quantities requested thereby, access their capacity bookings histories, review and print out their capacity bookings summary reports and view all information related to the transmission system balancing and the secondary capacity market.
