TARIFFS FOR INTERRUPTIBLE CAPACITY: are equal to 90% of tariffs of firm capacity products (Y, Q, M, D/WD) at given Entry or (and) Exit point. The ex-post compensation paid for each day on which an interruption occurred (after the purchasing of firm capacity products at given Entry or (and) Exit point), is equal to the tariff of daily firm capacity product at that point, multiplied by 3. If in 2023 green gas (biomethane, hydrogen) producer will be connected to the transmission system an entry tariff without discount will be applied to that point.
